With over 80 million players worldwide, Playerunknown's Battlegrounds (PUBG) is one of the most popular battle royale games ever made. Created by PUBG Corp in collaboration with the creators of the Battle Royale game mode, it gained popularity after being posted online as an early access game in mid-March 2017. Players drop onto an island full of guns and scavenge for supplies to last the longest. The last player or team standing wins. Playerunknown's Battlegrounds is inspired by best-selling battle royale genre of games. Key Game Features: • Fast-paced, Drop-in, Drop-out Multiplayer. • Randomly Generated Island, Day and Night Cycles. • Established and Emergent Player Societies. • Dynamic Weapon Classes and Ammunition Types. • Hidden Objective System. • Sandbox-style Map Editor & Map Voting. • Variety of Player Skins and Weapons. • U.S. and Global Servers.Q: IntelliJ customize keyboard shortcuts (Mac OS X) As the title says, I'm looking for a way to customize the keyboard shortcuts in IntelliJ for Mac OS X. A: You can use Default Mac Keyboard Shortcuts To map some of the keyboard shortcuts in IntelliJ use File Settings Keymap Add shortcut To customize the shortcuts in the Edit menu, consider using the Keyboard Window in the System Preferences. Open System Preferences -> Keyboard -> Keyboard Shortcuts There are a lot of shortcuts listed, you may have to learn a lot of shortcuts (hopefully it's just a few), and you may have to go into the individual settings for each program and find the shortcuts you want to remap. Midterm results of a modified LPS (low profile) clip technique for the resection of aneurysms of the intracranial internal carotid artery. An aneurysm of the intracranial internal carotid artery (ICA) is a life-threatening disease. Endovascular treatment is often used to treat this pathology. However, clip complications are not infrequent and in the past many techniques of clipping the proximal ICA have been described to reduce the risk of these complications. A modified LPS (low profile) clip technique was used in this study to treat 22 aneurysms in 19 patients.

"Resolutiion" was developed by Solvium Productions, including an award-winning composer, a talented designer, a talented graphic artist, and an enthusiastic musician. Solvium Productions was founded in Germany in 2007 by developers who wanted to pursue their love for audio production and videogames. Since then, they have released a myriad of soundtracks and remixes for downloadable content for the popular game "DayZ". Resolutiion covers moody contemplations, nightmarish excursions, thunderous noises, rhythmic rumbling, and calming moments of relaxation. These subdued environments from Solvium Productions's soundtracks became the inspiration for these two records. All tracks are licensed under Creative Commons 4.0. You are free to share and distribute the included music across the net. Game "Resolutiion Soundtrack" is a quest-oriented action-adventure game, which puts you to the center of a conflict between good and evil. You are the Protagonist from the young state of Liberty and your mission is to find the way to this state and to liberate it from the iron grip of the Evils. Press Release: In the game "Resolutiion Soundtrack" the music is a crucial factor. You have a vast amount of environmental, narrative and artistic requirements, which you have to meet. The artist/composer Gerrit Wolf has created a soundtrack that perfectly complements the atmosphere of the game. No wonder that this young and upcoming musician has already received many awards and praise at parties and shows. In the third part of his album series "Resolutiions", Wolf has created a unique texture within the realm of noise. With 57 tracks and 37 variations, that is the largest release of his entire career so far. This record is a concept album of two parts. The first disc is evocative and melancholy, the second a frenzy of noise and offensive guitars. We know from the official press release that Wolf hates lo-fi and the 80s, that's why the sound he creates is experimental and new. Wolf is not a workhorse. In fact he believes in quality and quantity and he is demanding and conscientious. The game "Resolutiion Soundtrack" is not a sequel to any other game, it has its own inspiration. In "Resolutiions" the question arises, why are there so many restrictions in the interactive world of today? Why are there so few accidents and so little improvisation? When many games do not tell the player anything, when there is nothing to do at all, where is the fun? In "Resolutiions" these themes are examined by the composer Gerrit Wolf. He wants to find a way to subvert the usual restrictions and create a game that is fun for the player. Sound by Gerrit Wolf From prehistory to the present a demon stands at the gates to humanity. It is called Fear. In Wolfs world Fear is also known as Confusion, Anger, Paranoia, and does not rest until it has taken over. The time has come for humanity to arise from its slumber and the time to find the way to freedom. With 57 tracks and 37 variations, this is the largest release of his entire career so far. Record 1: Ambient Extensive

### **What's new in Resolutiion Soundtrack:**

**for "Ghost Rider" I was kicking back and listening to the new The Avengers (for the third time - I have watched it about ten times so I guess it's kinda on my watch list), when I almost dropped it to my head cause I was listening to Ghost Rider's soundtrack, which gives me the same vibe. Actually, I considered turning it off but I got hooked on it and now I'm just listening to it over and over. I also got the same vibe in the track The Icarus Paradox, by Garth Brooks. It's a good track (there's also a very creepy part like the part in Ghost Rider), but perhaps some people listening to it won't get the vibe I'm getting from it. Lets put it like this. (-----) My Soundtrack List for The Avengers You know, as a fan, you know what line of comic you're gonna see and what it's going to be about, sort of. So, as far as this movie, I was expecting some Ghost Rider+Iron Man=ultimate combination. I know Tony doesn't use his**

**tesla device often in the movie, but he gets him in there, him and Captain America and Bruce, for the fight in Ghost Rider's house (with Falcon). His tesla motivates his Black Widow as well. As for the Ghost Rider, he's not that for most people who don't know it. As a comic, he's cool...when combined with Iron Man and just a couple more villains, you might say. But as a standalone vehicle? Not really. I'm not gonna be that harsh to overlook the Ghost Rider music and go back to the movie to watch the scene(s) (mine is almost 23 min. long). But really, as a whole movie, it's not high-quality. The beginning of it could really be thought of as a comic manga, with Venger as Ryder. The ending...yeah, I'd say that's the normal ending. One of the things I liked about it was that the producer, Joe Roth, is friends with my girl, and I should mention that before I present this to you: The actress who plays the Black Widow/yup, she's my girl....and I see her EVERY week. Really, our acquaintanceship has been that way since we've been about 11. I've known her since grade school. You take a young kid in a tiny little hometown in PA,**
