Features Key:

A fast arcade game with a nice storyline.
A custom soundtrack, available as download.
A reputation system that will affect how you play with it!
Graphical and functional achievements!

Vector Prospector - Tips:

- Bonus levels are a bit harder than in Prospector.
- Try to get some cash in the first level, so you can buy crazy high speed items like the rocket, and not a fire gun with a speed of 10!
- In the first part of the game the only item you can pick up are rocks. But there is plenty of stuff in the room! In the 2nd level the room is full of all kinds of stuff that can be picked up. (get first 100% with Caption, Gonzo, the Blenders, Super score, the highest speed etc.)
- Be careful picking up first aid kits, due to the fact that the player is very slow.
- It's possible to find hidden items, so try to use the map!
