When you place a lock on your debit or ATM card via Online or Mobile Banking, it will prevent most types of card transactions from being processed until you take action to unlock your card. Any virtual cards linked to the locked card will also be locked. However, the lock will not stop card transactions presented as a new recurring or a previously scheduled recurring transaction by the merchant, transactions using other cards linked to your deposit account, or the posting of refunds or credit adjustments to your account. Additionally, transactions that occurred prior to locking the card will not be affected. Locking your card is not a replacement for reporting your card lost or stolen. This feature is available on the Mobile Banking app for iPad, iPhone and Android devices. Data connection required. Wireless carrier fees may apply. Step 01: When applying for Spin Access, select No on the question Do you have a smartphone that can download and run the Spin appStep 02: After you are approved for Spin Access, find a scooter, and look for its vehicle number. This is usually located underneath the QR code, and sometimes also on the stem beneath the handlebars.Step 03: Text unlock and the vehicle number to (206) 800-6703 to unlock, e.g. unlock 12345.Step 04: To lock the vehicle and end your ride, text lock to the same number.Step 05: Text balance to the same number to be informed of your current credit on the account, if any.
