ROBOTILL PC/Windows

ROBOTILL is a comprehensive piece of software that enables you to transform your computer into a till. Allows you to transform your computer into an efficient POS. Probably the first thing you should know about this utility is the fact that it comes with support for a broad range of POS hardware such as touch screens, barcode scanners, electronic cash drawers, POS till printers and card readers. Of course, this app can be used without specialized POS hardware, all you need is a run-of-the-mill computer and a typical printer. The application undergoes a streamlined installation process thanks to an intuitive wizard that also helps you setup any necessary databases. Well thought-out and user-friendly interface. The interface defines how a POS system should look like, highly functional and straightforward. The main features and menus can be easily accessed via large and easy to click on buttons. Other secondary and less used features can be found in the minimal menu bar, found on the top part of the main window. Provides almost all the POS features you need to smoothly run your business. Besides all the expected capabilities, ROBOTILL also enables you to fully customize printed forms such as till slips, quotes, refund slips, account payment slips, order slips and layby slips. Taking everything into account, ROBOTILL proves itself to be a user-friendly and very useful piece of software that if used well, should eliminate lots of the retailers, supermarkets and shops inventory-related hassles. What's New in the ROBOTILL?

The award winning ShapeShift application, the only zero-knowledge cryptocurrency exchange. With ShapeShift you can instantly convert between bitcoin, ethereum, zcash, and 29+ other coins. We are the easiest way to buy and sell cryptocurrency. ShapeShift is the only exchange that instantly converts cryptocurrency for you. No need for registration, no need for id verification, and no waiting. Follow us on Twitter @ShapeShift_io For press and business: Email or call us: +1 (855) 970-7983 Web: Instructions: Open the ShapeShift application on your mobile device. 2. Search for the cryptocurrency of your choice on the top left. 3. Enter the amount of cryptocurrency you want to convert and hit the "Buy Now" button. 4. Wait for the transaction to complete. 5. Your new cryptocurrency will now be added to your wallet. IMPORTANT! You can only trade between two cryptocurrencies at a time. For example, you can't buy bitcoin with your dollars and then instantly sell the newly acquired coins for ether. To sell your bitcoin, first you have to buy ether. Security: The ShapeShift developers are famous for their security: 1. All transactions on the ShapeShift platform take place off-blockchain, which means they don't show up on any public ledger. 2. Withdrawals and deposits never leave your wallet, making your coins inaccessible to hackers. To withdraw, you need to confirm the transaction by entering a transaction password into the application. The transaction password is a randomly generated series of letters and numbers. To see your transaction history, you have to download the ShapeShift mobile wallet. A pre-installed QR code will automatically connect you to your account. To see your account activity, you can log into the ShapeShift website. We're not a bitcoin exchange. ShapeShift will simply convert one cryptocurrency for another without charging any fees or commission. We're a world-class service that makes buying and selling cryptocurrency easy and secure. Just download the app, send your coins, and start trading. The service is free, so it costs you nothing to try us out. You can always cancel your transaction at any time. FAQs SHAPESHIFT can be used in the following countries: USA Canada UK Australia Singapore South Korea India Azerbaijan Bangladesh Indonesia Malaysia Nepal Indonesia Pakistan Philippines Sri Lanka Hong Kong Singapore Azerbaijan Bangladesh Indonesia Malaysia Nepal Pakistan Philippines Sri Lanka Hong Kong
